

## **ANNE MARIE SULLIVAN**

Vice President, Operations

**ANNE MARIE** has over fifteen years of extensive experience in many diverse areas of business including operations management, process improvement, marketing, customer service and project management. As Vice President for Paradyne Consulting, Anne Marie managed divisions that provided strategic consultation in process improvement, operational streamlining and standardization, business process documentation and the development of customized in-house training programs for organizations in many diverse industries.

Prior to joining Paradyne Consulting Works, Anne Marie developed an extensive career in operations and marketing management. At General Electric, she worked her way through positions of increased responsibility as Advanced Materials Specialist, Manufacturing Product Owner, and Plant Marketing and Customer Service Manager. Her work with General Electric gave Anne Marie extensive experience in diverse areas of manufacturing, operations and marketing. She also has extensive project management experience in manufacturing, healthcare and education.

Anne Marie has an MBA from the University of Connecticut with a specialty in Marketing, and a Bachelor of Science in Mechanical Engineering from the University of Notre Dame. She has completed coursework in various professional subjects such as 'The Theory of Constraints' at the Goldratt Institute, GE Six Sigma Concept Course, Manufacturing Leadership Curriculum, JIT Seminar, and Kaizen Study.
